

ORDER

24.09.2021 № 63

**On the procedure for applying
the reduction factor to the price of a new
additional service for the provision of a passenger
air bridge in Odesa International Airport**

In order to create preconditions for efficient operation of the airport and air carriers, refinement of technical operational interaction in ground handling, increase passenger traffic and number of flights, encourage air carriers to further use the services of Odesa International Airport, taking into account the realities of economic nowadays, introduction and periodic intensification of restrictive anti-epidemic measures related to prevention of the spread of acute respiratory disease COVID-19 caused by coronavirus SARS-CoV-2 in Ukraine,

IT IS HEREBY ORDERED:

1. Air carriers that use or intend to use services of ground handling in Odesa International Airport, have the opportunity to use the service of providing passenger boarding bridges for the first consecutive 15 flights that will be carried out during the period of validity of this order, using a reduction factor of 0.02 to the established price of this service.

In cases due to the peculiarities of technological processes of ground handling, the servicing company reserves the right to refuse to provide a passenger air bridge when servicing a particular flight of an air carrier.

2. If air carriers, within the term of this order, wish to use the service of providing passenger boarding bridges under the conditions specified in paragraph 1 of this order, they shall send to the address of the LLC "ODESA INTERNATIONAL AIRPORT" an appropriate written statement indicating the starting date of use of passenger boarding bridges during ground service in Odesa International Airport.

3. Appropriate changes are made to the existing and newly concluded standard IATA ground handling agreements (simplified procedure) with air carriers (airlines) on the basis of the submitted statements (the relevant conditions for the use of passenger boarding bridges on the first 15 consecutive flights shall be agreed).

4. The number of minutes of operation of the passenger boarding bridge during ground handling of the first 15 consecutive flights of the air carrier to which the reduction factor of 0.02 is applied under the conditions specified in this order will be included in the total number of minutes of operation of the passenger boarding bridge for one reporting month for further application of a reduction factor of 0.7-0.9, starting with 16th consecutive flights of the air carrier.

5. For the purpose of informing all air carriers (airlines) about the procedure for applying the reduction factor to the cost of the service of providing a passenger bridge, to place this order on the Website of the LLC "ODESA INTERNATIONAL AIRPORT" www.odessa.aero.

6. To bring the order to the notice of commercial director, financial director, chief accountant, economic department, contract department.
